This 8-week program is designed to break every rule you've learned about running and scaling a business!

You will NOT be made to follow another person's (or my own) strategy that may or may not work for you!

You will NOT be made to sell at super High or Super low prices!

Or anything of that nature.

If you're disappointed and dissatisfied with how society has taught you to trust that other people know more about you and how to run YOUR business than you do, then you're in the right hands!

Read more about the Wealth Rebellion Academy™ (WRA) below

What you get inside the 8 week program

Intimate Private Facebook community – no more than 6 members

Smaller groups are a hugely powerful catalyst where you won't just feel safe sharing and learning together, but the size allows for genuine networking among peers.

From experience I have made some of my best friends in smaller groups like this which has helped me insanely scale my business through a greater reach but they've kept me sane when fears inevitably do kick in. Your business success is NOT lonely! It's built together with others! And I hope to offer this for you in this program! I have even had students repeat the program again because it was so powerful

5 group coaching/hot seat calls + 2 group Belief workshops

This is where you'll get direct coaching from myself where we'll address what you're currently needing most help with. Belief workshops are designed to help you understand where your subconscious behaviors originate from and release them on a subconscious AND energetic level. You'll be guided all the way. All calls are recorded, so if you can't make it live you can leave your question and still get an answer in the call

Weekly focus topics

These topics are designed to give you a Focus on what next step to take to achieve your goal. These topics will promote radical responsibility and self reliance using your unique Human Design + Mindset work + Strategy so you can stop doing what your peers are doing and start BEING more of what you are and run and scale your business in a way that actually works for you

Implementation time

Each week has enough time to help you implement your focus tasks. There is such a thing as TOO many assignments! And from experience you don't need to DO more things, but often do less!

Continous support throughout the program

You don't have to wait to ask questions until each call, you can ask them in the group (which is highly encouraged)

Accountability partners

Each of you will have a partner you'll do exercises with assigned to you (you can opt out of that if you like). I've said it before and I'll say it again – loneliness kills businesses and INCOME! There is no such thing as a 'self made' millionaire – every is standing on the shoulders of someone else and had someone else's help! THIS is a small, yet vital. Part of this journey!

Doors to the FB group open 2 weeks prior to kick of

This will help you get to know everyone. You'll have time to hang out, and I'll kick off the group in those two weeks before, this is also where I'll be polling everyone on the group call times to ensure the times are accessible for everyone. This is also where you'll set and announce your goals for the program which we'll be using as a benchmark for your progress! (don't worry if you feel overwhelmed by goals, I'll show you how to set realistic goals. And NO, you do NOT need to want to set monetary goals if you don't want to)

Having spent 11+ years in sales and marketing there are usually 2 things that almost always keep your income from rising...

...and it's rarely a lack of sales and marketing skills/knowledge!

Most people assume that they need another course, are missing another nugget of wisdom of things they're NOT doing yet that stops their income from moving up. If you've made money in the past (whether through your business or not) **you know how to market and sell.**

Having a job requires you to market yourself to another company to employ you. Selling your offers requires you to understand how to market to your audience and sell to them.

If you've done one or both in the past then your skill level is NOT the problem.

In The Wealth Rebellion Academy™ the focus will be on two things in particular:

Your subconscious beliefs and thoughts

+

Your strategy as per YOUR design!

Most Courses + programs teach you systems and formulas you can follow which technically aren't wrong! But they don't take into account YOUR capacity, your background, beliefs, perspectives, knowledge, skills, time and more!

And that usually ends in you pointing the finger back at yourself thinking YOU'RE the problem!

YOU'RE NOT!

WWW.ADINAKROLL.COM

The strategies you've been taught are simply and aren't wrong. But just because something is simple doesn't mean it's easy!

Think of losing weight – the strategy for that is simple.

You expend more energy than you consume. But it doesn't take into account your time, capacity, what foods you can and cannot eat, your willpower, your desires, your attachment to food, your relationship with yourself and more.

We understand Humans have unique DNA – but we're not taught how to function in a unique and authentic way in society.

Well, I hope to be your (good) bad influence to break those rules!

In this program you will learn two crucial things you need to scale your income:

You will, yes, learn strategy you can execute practically. But it will be a strategy that works for YOU based on YOUR unique design, abilities and capacity! Not mine, not your peers, not Gary V's – YOURS!

Using Human Design as a tool you'll learn:

-  How your specific Human Design type best works
-  How you best make decisions and know what is correct for YOU using your inner Human Design Authority
-  How to harness the power of your unique design to access YOUR creativity, energy + work smarter (and possibly even more because as a 1st line profile I LOVE sharing my knowledge extensively!)

And we'll focus on the Beliefs and subconscious thoughts that impact your actions by doing belief work

Ever wondered why the **strategies you are given to market and sell are simple** but YOU can't seem to make them work?

How you easily get the concept of them and understand their logic but the moment you sit down to execute you just can't come up with ideas, lose focus and/or you might even get a physical illness like headaches?

That's where belief work comes in!

Your brain has a very specific function – it WANTS you to survive! It just hasn't come into the 21st century yet.

That's what we'll be doing and showing you in the program!

You'll be able to do your own belief work and detect when you're self-sabotaging your thoughts that are impacting your actions to growth!

What my students and clients are saying

Emma Medina Castrejon – Photographer

Before I started the WRA (Wealth Rebellion Academy) I could not figure out why I had so much resistance and why nothing seemed to be working for me. I just deeply trusted Adina and her talent as a coach.

I've taken and bought so many courses and programs and it all made sense except I didn't quite know how to apply these things to myself and I was having such a hard time taking action.

I have always understood that mindset and inner work were important but it never clicked before the WRA program.

The fact that the group calls are small and intimate helped share in a more vulnerable way and Adina always gave me the time I needed in the hot seats.

It's the first time for a program that I can say I've not only made all the money it costs back within those 8 weeks, but I also increased my total monthly earnings without working more hours.

I cannot recommend the program and Adina as a coach enough. I am signing back again! This has been a wonderful journey

Karing Gambaracci – Dating Coach for women

"Working with Adina has been so extraordinary. I was in her Wealth Rebellion Academy and able to double my highest income month in a way that felt so easy. When I'm looking back I'm like, how did I do it?"

But it was definitely because I was working with her and because I was coached by her to also use my human design to work in a way that is right for me. I couldn't stop and say thank you enough. Of course, I'm continuing to work with Adina.

I switched to private coaching, and I booked for another six months with her and I'm just so excited to continue this journey. And you know, Adina is amazing. And if you are just thinking about working with her, I can recommend her with a whole heart"

Bee Dohnt – Founder SEO Bitch

Since our first conversation and our first belief session, I have felt a huge growth not only in my business but also in my personal life!

For the first time I am EASILY forecasting a monthly income of £3835, which is more than double what I was struggling to invoice before working with Adina.

On top of this huge success, my travel anxiety has also completely, and unexpectedly, disappeared! Living as a digital nomad, the value of losing this travel anxiety is honestly incalculable.

Before we started, I expected there to be a long development process, but was dedicated to working on myself and committing to following the practice no matter how long it took. Such speedy and significant results have been an absolute surprise. Being shown, guided and taught in line WITH my Human Design made it so easy to comprehend and value the guidance and information so I could see such mindset and motivational growth!

J. F - Holistic Health Coach

After just one belief session with Adina, I was able to breakthrough a limiting belief that gave me multiple failed attempts at sales calls. Days later I received two easy yeses into my high-end program, making more money than the past six months combined!

These are only a FEW of the examples of
what's possible!

The Program is designed to add as many
touch points to your journey as YOU want,
in the areas are the most successful and
lucrative to you!

Are you ready to join us and be one of the
6 who will be transformed this year?

About your Host

Hi, I'm *Adina*,

and I'm a 5/1 Emotional Projector, Author, Speaker, and international business & Human Design coach for visionary entrepreneurs and their teams!

Originally from a small village in the far Northeast of Germany I tried to escape having to decide what to do for the rest of my life by doing the only thing I could:

Move to another country! ;)

Before I knew of Human Design I have spent years trying to figure out WHY the traditional methods of business AND life were so fucking hard for me! And even when I DID apply them, they wouldn't work for me!

When I found out I was a Projector, it all made sense and I started to incorporate this into my business alongside sales psychology, belief work + NLP. And honestly having spent a lot of time being indoctrinated by society's expectations, I believe with every fibre of my being that life is meant to be enjoyed. And so is business!

Frequently Answered Questions

When will the calls take place?

In the two weeks prior to the official start I will put out a poll for call times where you can vote for your preferred times. This is to ensure that people in different timezones can all come together.

How many students will be in the group?

No more than 6 people total. I want to ensure that in our calls everyone gets a good amount of personal hot seat coaching time

Is a group program right for me?

In my experience for the majority of people a group program as a first touchpoint with my work is a great way to not only experience how I work but do it in a way that allows you to see how others are also running and scaling their businesses! Because I don't teach a rigid formula or system you won't be doing the same things as your peers in the program! Instead, you'll be learning and applying business strategy WITH my guidance and support in line with your Human Design! Because everyone's energy levels + capacity is different creating a sustainable strategy has the highest potential for ROI ← which is exactly what we want! Since this program will be incredibly intimate you'll really get to know your peers in the process. I will guide you through everything and you'll be growing together.

What if I need help and support outside of the call times?

The general hub for ALL communication is via the dedicated facebook group where you can post as often and however many questions you like.

Can I upgrade AFTER I've already purchased the core experience?

Yes. Simply email me at hello@adinakroll.com

Frequently Answered Questions

What format are the calls in?

They'll take place on Zoom and will be live-streamed in the private Facebook group so you can rewatch them whenever you like.

I'm a startup and have not made any money in my business, is this program right for me?

NO – this program is not right for you if you're a total beginner. Look at resources on how to establish yourself a little more first. If you still want to join at a later stage I'm happy to have the conversation.

I don't know anything about Human Design, is that a problem?

Not at all. You don't HAVE to know about HD at all, I use it as a tool to guide you, but most of my clients prefer to understand their design and find it fascinating and insightful to hear how they're designed to operate in the world.

What is your refund policy?

Due to the nature of this work, I cannot offer you any refunds. Please note that all sales are final.

I don't have problems around earning money, but I struggle with my balance and want to scale more but don't know how. Is this something you can help with?

ABSOLUTELY! Scaling sustainably is one of my favorite subjects :)
